Credit Issues

Got Credit Issues?

Owning your own home doesn't have to be a dream. Your Canadian credit rating is an important factor when applying for a mortgage loan.

Generally speaking, the better your rating, the more options you may have available to you.

However, a less than perfect credit rating doesn't always have to mean the difference between owning and not owning a home. While financing may be more difficult to secure, the professionals at The Mortgage Centre are familiar with many types of financing, and have worked with individuals with all types of credit backgrounds.

By sitting down with your local Mortgage Centre specialist and discussing your current financial situation, you may be pleasantly surprised that owning your own home isn't out of your reach. Our goal is to help you achieve your dream of home ownership.
